Title: (FR) Système et procédé d'entrée de données dans un jeu avec reconnaissance vocale.
(EN) Game input device and game input method with voice recognition
(DE) Spieleingabevorrichtung und Spieleingabeverfahren mit Spracherkennung

Abstract: (EN) In order to play a game by voice control, a voice recognition device used as a peripheral device and a voice recognition method are provided. The voice recognition device comprises voice input means 7, a game machine control section 2b, and a voice recognition section 61 for recognizing the player's voice by comparing the voice signal output from this voice input means 7 with data from previously defined voice recognition dictionaries 61b, 61c, and generating control signals relating to the game on the basis of the recognition result and output signals from the control section

2b.
